Relax... Enjoy...
The Boxley Way.
Outdoor Living...Simplified

The Product You Want. When You Need It.

At Boxley, we believe that creating your outdoor living space should be fun and hassle-free. That’s why we created the Boxley Hardscapes Design Guide. We like to call it Outdoor Living...Simplified.

We provide a streamlined selection of quality pavers, retaining walls and accessories in complementary styles and colors that are ready and available when you need them. Just give us a call with your order. Most items are in stock and ready to deliver. It’s the Boxley Way.

We Stand Behind Our Quality Hardscape Products.

Outstanding quality and service are the hallmark of Boxley hardscape products. In the rare instance a hardscape product produced by Boxley and used in residential application is determined by Boxley to be defective, Boxley will replace the product free-of-charge to the original purchaser.

Our assurance of product quality is applicable where products have been correctly installed to meet the manufacturer’s specifications and proper applications and have not been altered or modified in any manner. Color variance and the appearance of efflorescence do not constitute a warranty claim. Any defective products will be replaced; however, replacement labor and transportation costs are not included in this warranty. All warranty claims must be made prior to the removal or disposal of the defective product. If a replacement product is not available, Boxley may in lieu of replacement, refund the purchase price for the defective product. This warranty is nontransferable, and proof of purchase is required.
Newline Pavers

MOVING THE INDOORS OUTSIDE

Lay a foundation that not only improves the value and aesthetic appeal of your home, but one that invites you and your family to enjoy the great outdoors. With classic shapes, bold colors and distinctive textures, Newline’s premium pavers can transform your outdoor living space and set the stage for backyard parties, cookouts or just plain relaxing... for years to come.
Different tastes mean different needs in selecting your hardscape products. We help make the process easier by providing our pavers with a variety of face finish options. Whether it’s smooth, textured, clean or antiqued, we have the look you need.

- **Chamfered**
  A classic finish that is characteristic of traditional brick. Features beveled edges.

- **English Cobble**
  Provides a time-worn, weathered effect to the look of the paver.

- **Classic Cobble**
  With rounded “pillowed” edges, the traditional finish provides a soft, padded appearance to the paver.

- **Carriage Stone**
  This finish includes both a textured relief to the face, as well as an antiquing process, aging it to appear like old cobblestones.

- **Slate**
  This specialty finish gives the patio tile a texture similar to Pennsylvania Bluestone or slate.
A slate-faced, three-piece slab system, Terrace Stone™ is designed to be laid either as a standard paver, or as a permeable pavement system. Each pallet contains three sizes, allowing you to lay a variety of random patterns.
York Tile™ is a slate-faced slab product designed for those looking for a larger, more dramatic appearance than a standard paver. This is one of our premier products, with a vintage slate texture. Each pallet contains three sizes, allowing you to lay a variety of random patterns.

Not recommended for vehicular use.
Our most popular paver, Classic Cobble™ in 6 x 6 and 6 x 9, provides incredible ease of use and flexibility of design. And with soft, rounded corners and a domed "pillow top" surface, Classic Cobble™ delivers an Old World feel. The two sizes are sold separately, but often are used together in a variety of patterns.
Classic Cobble™ 4-piece system provides the ability to lay pavers in a totally random pattern with all of the different sizes in one pallet. The larger scale and random look gives the installation a bold, natural stone effect.
While the shapes and sizes are similar to Classic Cobble™, the English Cobble™ unit has a tumbled finish that resembles old cobbles that have been weathered for years. Its antiqued surface and edges lend a soft look and a feel of timeless sophistication to any project.
Our English Cobble™ 4-piece gives you the ability to lay pavers in a totally random pattern with all of the different sizes in one pallet. With a myriad of design options, this system can provide a wide variety of appearances. The soft, weathered feel of this unique product works well on walkways, pool decks and even driveways.
Carriage Stone™

A 4-piece paver system means more ways to show your creativity. With Carriage Stone™ pavers, you can design a totally random pattern with all of the different sizes on one pallet. This product, only available in a tumbled finish with a dimpled surface, will add warmth, style and ambiance to any outdoor environment.
Alleyway Cobble™ provides the appearance of an old granite paver that has been in the ground for centuries. This 4-piece system is crafted with a natural stone-cleft finish and rounded edge. It can be used as a standard paver or permeable interlocking concrete pavement (PICP), depending on how you install it.
Aqua-Flo™

A traditional permeable paver unit, Aqua-Flo™ features a 5"x10" profile. This simple rectangular paver can be used in a multitude of patterns such as running bond, basketweave, herringbone or even stack bond.
Enviro-Flo™ is a traditional-looking permeable paver that is both visually attractive and pedestrian friendly. This system is designed to meet or exceed current stormwater management requirements. Its rectangular shape and structurally-sound herringbone pattern make it suitable for vehicular applications.
Turfblock

Turfblock is a thick, square slab with open grids that allow water to permeate through the system. Turfblock can be used for overflow parking, fire lanes, erosion control and parking lots where permeable paving is required. The open voids can be filled with drainage aggregate for maximum infiltration or soil to allow greenery to grow.
Give your existing patio or pool deck new life with our Overlay Collection™ paver tiles. These durable, thin “resurface” paver tiles can transform your poolscape, walkway or front porch with beauty and ease of installation. They’re great for remodeling cracked or worn concrete (or to provide a crisp new look over standard concrete) and last for generations.
Our CopingStone™ unit provides a smooth, soft roll to the edge of your patio or step application. CopingStone™ can be used for applications such as swimming pools, step treads, deck overhangs and wall caps.
EdgeStone™ pavers are the perfect product to trim a mulch bed or curb a walkway. Easy to install and available in a tumbled finish. EdgeStone™ is a great choice for adding that finishing touch.

Newline Paver Colors

*6x9" Only. 3 1/4" Special Order.  = In Stock. All other colors require 1-week lead time.
HARDSCAPES FOR EASY LIVING

Pavers add visual interest, function, and substance to any outdoor landscape. They enhance small spaces and expansive areas, complement traditional and modern designs, and serve small and large budgets.

In this issue, Eagle Bay® presents three distinct paver designs so you can easily choose a paver with the finish and pattern that best matches your unique style.
Although cost, durability, and maintenance are all important factors in choosing a material for your hardscape, we think you’ll agree that the design choices are the most exciting thing about Eagle Bay® concrete pavers. Within our paver collections, we offer several finishes to help you get the exact look you want.

- **Chamfered**
  Flat surface, beveled edges.

- **Textured**
  Dimpled surface, rounded edges.

- **Traditional**
  Flat surface, rounded edges.

- **Antiqued**
  Flat surface, worn edges.

- **Cobbled**
  Mottled surface, worn edges.
Versatile in color and application, BrikStone Chamfered has become the top choice of many designers. This single stone, featuring beveled edges, can create classic patterns such as basket weave, running bond, and herringbone.
CottageStone Antiqued is available in 6” x 6” and 6” x 9” shapes. The two sizes can work alone or together, and with its antiqued finish, your new hardscape will have the allure of time-worn stones.
Modeled after brownstone squares and rectangles, CottageStone Chamfered is crafted in 6” x 6” and 6” x 9” shapes. The beveled edges add dimension and maturity to your project and give it a Georgetown elegance.
Available in either a 6” x 6” square or a 6” x 9” rectangle, CottageStone Textured offers a multitude of hardscape pattern opportunities. With its dimpled-face finish, CottageStone Textured will make your final design convey artisanal creation and perfect imperfections.

Exciting and varied in design, this 5-piece system is cobbled to feel historic and lived-in. There are numerous colors to choose from and endless design possibilities for your patio, pool deck, driveway, and more.
Bring style to your poolside, patio, or driveway with GrandCay’s popular five-piece paver system. The textured finish will give your project dimension and the variety of paver colors available can lead to interesting patterns.

Boxley Walls

STRONG. DURABLE. APPEALING.

Boxley Walls provide strength and durability without sacrificing aesthetics. From historic to contemporary, our wall finishes provide the look and feel you love to incorporate beautifully with your hardscape project.
Wall Finishes

- Straight Face
- Random Face
- Random Face Scored
- Nursery Stone
- Aged
StoneLedge™ is a double-sided, multi-sized, tapered unit system that provides the hand-finished look of quarried stone. It is ideal to construct retaining or freestanding walls, stairs, planters and terraced patios. No special equipment is required for installation and one person can comfortably handle these lightweight units.
“Provides the hand-finished look of quarried stone.”
The quarried face and the endless creative random patterns make StoneLedge™ an excellent choice for value, beauty and durability. To create your own style, combine 3” and 6” tall pieces in the same wall. The sheer flexibility of this product allows for endless creative patterns.
“Ideal for retaining or freestanding walls, stairs, planters and terraced patios.”
MiraStone™ units resemble weathered rock and have a random split face with a hollow core. MiraStone™ units complement our CornerStone® 100 unit wall solution with a height of 6 inches instead of 8. It is the perfect solution for an affordable aged stone wall with a multi-piece look from a single unit.
Units resemble weathered rock and have a random split face.
CornerStone® 100 series combines large cores, unique connecting lugs and tapered sides to allow maximum flexibility during installation while maintaining high structural integrity. It offers an economical wall solution for residential walls or large commercial retaining structures. The 100 series is also offered in a Random Face wall option giving the wall a multi-piece look that is easy to install.
The absence of structural connectors provides greater layout flexibility and a more economical wall system.
NurseryStone units provide a unique look with a rough-hewn appearance and beveled design, allowing you to create graceful curves and patterns that guide the eye to what lies beyond. Ideal for garden walls, water features, planters and retaining walls.
A unique look with a rough-hewn appearance and beveled design.
Firepits are a focal point for your outdoor living space and provide a charming venue for entertaining and relaxing with family and friends.
Traditional fireplace look from Emberlok. This product includes firebox, smoke chamber, and two or three feet of solid block chimney.
